Illuminate\Routing\Controller::__call

vendor/laravel/framework/src/Illuminate/Routing/
Controller.php:68   ✏️

```
43         }
44
45         /**
46          * Execute an action on the controller.
47          *
48          * @param  string  $method
49          * @param  array  $parameters
50          * @return \Symfony\Component\HttpFoundation\Response
51          */
52         public function callAction($method, $parameters)
53         {
54             return $this->{$method}(...array_values($parameter
55         }
56
57         /**
58          * Handle calls to missing methods on the controller.
59          *
60          * @param  string  $method
61          * @param  array  $parameters
62          * @return mixed
63          *
64          * @throws \BadMethodCallException
65          */
```

```php
        public function __call($method, $parameters)
        {
            throw new BadMethodCallException(sprintf(
                'Method %s::%s does not exist.', static::class
            ));
        }
    }
```
